

IOUG and ODTUG Welcome BEA Customers

The Independent Oracle Users Group (IOUG) and Oracle Development Tools User Group (ODTUG) welcome BEA customers to the Oracle community.

Through peer-to-peer collaboration and information exchange, IOUG and ODTUG provide critical resources designed to help BEA customers solve real business issues, and influence Oracle's direction on their BEA business solutions.

IOUG and ODTUG have partnered to present BEA-specific, customer-driven sessions at Oracle OpenWorld at the User Group Forum Day, September 21 in Moscone West in Room 3000. All BEA customers are invited to attend and meet the Oracle user group community.

9:00 – 10:30

IOUG and ODTUG: BEA AquaLogic and the iPhone

Remy Miralles, bdg

This presentation will show you how to build iPhone-enabled applications on AquaLogic using adaptive layouts.

10:30 – 12:00

IOUG and ODTUG: Building Web 2.0 Social Applications in Ruby on Rails using BEA AquaLogic Interaction

Chris Bucchere, bdg

Learn how to build a cutting-edge social network using Ruby on Rails, the Ruby IDK and BEA AquaLogic Interaction, and LBPM using your existing SOA infrastructure from Oracle and BEA.

1:00 – 3:00

IOUG and ODTUG: BEA AquaLogic versus Oracle Fusion Middleware Shoot Out

Lonneke Dikmans, Approach Alliance and Ronald van Luttikhuizen, Approach Alliance

This session explains the BEA AquaLogic stack in terms that are used by Oracle and compare it to the Oracle equivalent in the stack using examples.

3:30 – 4:15

IOUG and ODTUG: Triple Threat: Combine People, Processes and Portals

Thomas Barton, Novartis Pharmaceutical

Learn how to implement business processes that cross departmental, organizational, and geographical boundaries by implementing BPM and portal technologies to centralize access to systems, unify the employee Web experience, and greatly decrease the time it takes to deliver valuable business solutions.

4:15 – 5:30

IOUG and ODTUG: BEA Expert Birds of a Feather Networking Session

User group leaders and technical experts will provide you with an overview of the Oracle vision and user group community.

IOUG and ODTUG are your top sources for relevant, timely technical information, training, peer networking, and advocacy for the Oracle technology industry and beyond. To help you decide which user group best suits your business needs, contact information for each of these groups is listed below.
